INFORMATION FOR VISITORS WITH DISABILITIES

Since Le Fosso in Brittany opened in 1991, its guiding principle has been to be "Open to all". This means that every attention has been given to accessibility to those with reduced mobility and to wheelchair users. A warm welcome is extended to those with learning difficulties; we aim to provide a reassuring atmosphere for all.

In addition to our tailor-made activity and visit programmes we can advise on the accessibility of places of interest, eating places, toilets and so on. For those on catered stays, special diets are available and all bedding is anti-allergy.

A great many of the major disability organisations in Great Britain and France have used our centre with satisfaction in recent years. All our documentation can be requested in large print.

Travel

Guests visiting Le Fosso, including wheelchair-users, have successfully used our recommended ferry routes (see general information sheet), also the Ryanair airline flying from the UK to Dinard.

We advise you to contact the relevant companies for details of facilities for disabled travellers. Discounts on ferry travel and eurotunnel can be obtained for members of Disabled Motoring UK - Tel: **01508 489449** E-Mail: info@disabledmotoring.org

Transport

For individuals or groups who do not have their own mode of transport or for those who prefer to hire transport in France we can obtain for you a quotation for car, minibus or coach hire. This includes adapted vehicles, and an adapted coach taking up to 15 wheelchairs.

Specialist Equipment

On site you will find roll-in showers and support bars in all the bathrooms and wide doors on all rooms.

Parking is possible on the same level as the accommodation, and out of doors, a choice of slopes or steps is provided where there are gradients. Basic shower-chairs, commode, bed and table raisers are available free of charge.

We can hire other specialist equipment for you (medical beds, hoists, wheelchairs etc.).

Please ask us for a quotation if such equipment is required. The charges are paid in Euros at the end of your stay.

Fully accredited

The accommodation has full and up-to-date health and safety certification and we only use and recommend places with equivalent standards. We encourage all our partners to welcome disabled people and to adapt their services to the specific needs of each visitor with the aim of advancing the inclusion of people with differing needs. Should you have any comments in these areas please tell us so that we can improve what is offered for future visitors.
